

#2109-1 Two Pole Equipment Rack

Assembly Instructions

BEFORE ASSEMBLY, review the detailed diagram to familiarize yourself with each part.

Step-by-Step Instructions for assembling Equipment Rack

1. Set poles in concrete per contractors specifications. See "A"
2. Attach channel strut to the 3-1/2" O.D. poles using the U-bolts provided. See diagram. Channel may need to be spread to accomodate nuts and tools.
3. Space Channel strut per contractor's specifications for equipment.
